Butterfly Duo by Tim Holtz® (660236)
Designer paper (Sweet Paris 8 x 8 by Dovecraft)
Old Paper Distress Ink and applicator
Pattern makers wheel
Fine marker pen
Ivory card
Mount board
Button
Adhesive diamante gems

How to Make:

1. Fold a square ivory base card and cut an insert from the green patterned paper before inking the edges and matting into the centre of the base card.
2. Use the pattern makers wheel and fine black marker to create the faux stitching effect around the edges of the insert.
3. Fold the red spotty paper (see the pop-out fold video) and place against the flower as shown.
4. Decorate the flowers with further die-cuts.
5. Apply some glue to the outer flowers before placing into the card. Hold the card closed until the glue dries.
6. Repeat for the butterfly card and attach a row of adhesive gems down the centre of the two butterflies attached to the card.
