

## Happy House Embroidery Hoop

### You Will Need:

Sizzix® Big Shot™ Machine (660200) or  
Sizzix® Big Shot™ Express Machine (660850) or  
Sizzix® Big Shot™ Plus Machine (660020)  
Sizzix® Bigz™ Die - Happy House by Samantha Barnett (661381)  
Assorted Textiles  
Embroidery hoop  
Needle and thread  
Heat bondable web

### How to Make:

1. Cut a rectangle of white or ivory cotton fabric which is larger than your embroidery hoop and attach a strip of the green striped fabric across the base using heat bondable web.
2. Use a large dinner plate as a template to mark out a circle on your fabric which is larger than the hoop and trim to size.
3. Apply heat bondable web to rectangles of the spotty and check fabric before die-cutting the house and hearts. Mount the die-cuts in place and secure/fix with a hot iron.
4. Use a pencil to lightly mark out the lettering and secure the assembled design in the hoop.
5. Thread your needle and knot both ends to create a double thickness of thread.
6. Use back stitch to create the detail around the house/hearts. Stitch the letters using a single thickness of thread.
7. Secure the loose edges of the fabric onto the underside of the hoop using strong tape or a hot glue gun for a more permanent bond if you wish to hang your embroidered art.
