

# 660987 Sizzix® Bigz™ Die - Village Bell Tower by Tim Holtz®

1. This die is designed to be used with the Village Dwelling die (660992). The dwelling should be built completely with the chimney still detached.

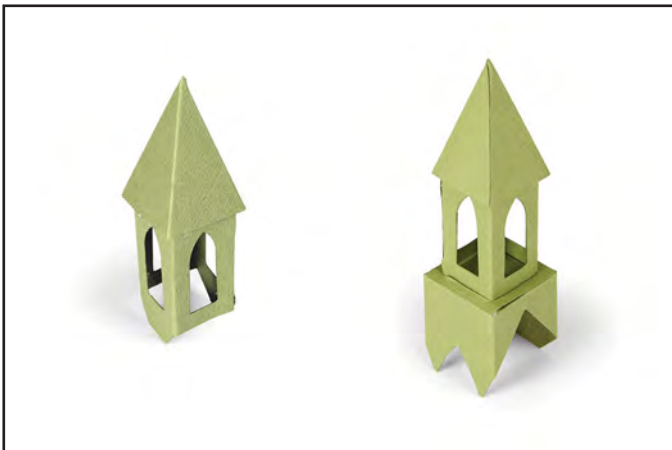

2. Die-cut from desired material.

3. Build steeple base as shown.

4. Build steeple walls and cap as shown.

5. Adhere the cap to the steeple walls. Insert the two bottom tabs of the steeple walls into the slits on the top of the steeple base and adhere in place.

6. Fold the tabs of the steeple base inward and adhere it to the ridge line of the main roof. Adhere the window casings to the exterior of the dwelling.
