

660992 Sizzix® Bigz™ XL Die - Village Dwelling by Tim Holtz®

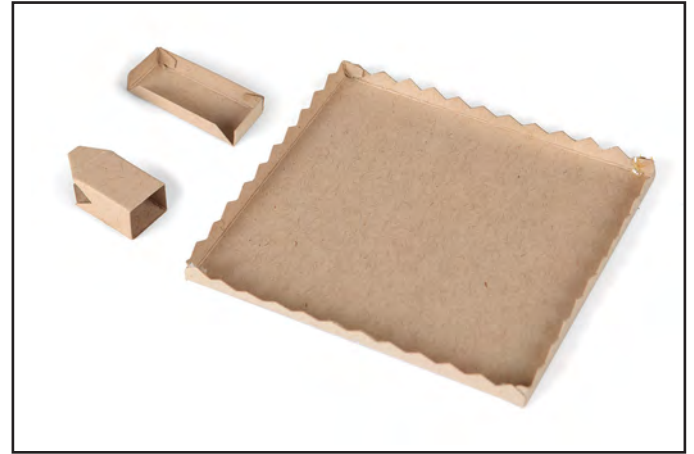

1. Die-cut from desired material.

2. Adhere the two wall pieces together.

3. Adhere remaining wall tab to corresponding wall to create the body of the Dwelling. Fold the roof tabs inward and adhere the roof piece as shown.

4. Build the chimney, porch step and base as shown.

5. Adhere the porch step to the front of the house below the door. Adhere the Dwelling and porch step to the base.

6. Insert the columns into the slits at the front of the porch step. Fold the tips of the columns over to fit the roof of the portico. Adhere the roof to the tabs of the house and the tips of the columns.

7. Fold the chimney tabs inward and adhere to the ridge line of the roof.
