

662285 Sizzix® Bigz™ Die - Christmas Star, 3-D by Katelyn Lizardi

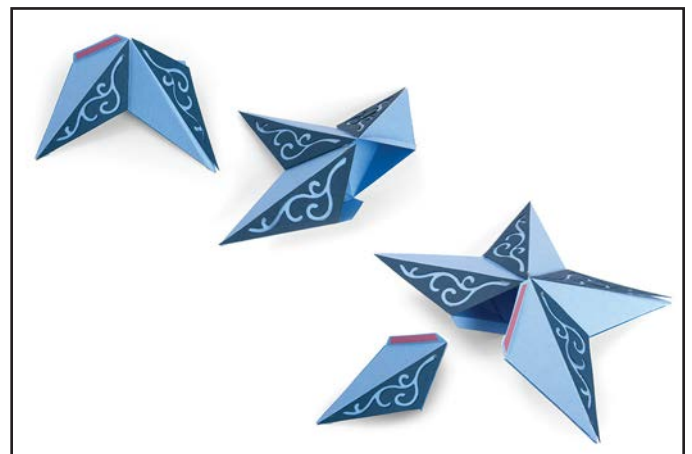

1. Die-cut out of desired material, and apply adhesive to the star points and selected embellishments.

2. Build the five star points by folding all the crease lines and adhering the side tab of each star point to the corresponding edge.

3. Applying embellishments can be done at any time during the process.

4. Attach the star points to each other by adhering the top and bottom tabs.

5. Finish the Christmas Star by adhering the small star over the center where all of the points meet.
